course carried all the other coppers along in its wake.

Early in the day keading started out as if it proposed to do something, but later followed the movement in other uarters. The early buying was founded on the news that the government had filed a dissolution suit in the supreme court. in the supreme court.

There was good buying in all the rail issues. The result of the New York primaries scarcely had any market bearing because it was realized Janu that the meagre Progressive vote for both candidates was no test at all of which side would receive the bulk of Progressive support.

was very significant of the ease in the credit situation that call money should have dropped to 2% per cent after a week of "Million share days."

CHICAGO GRAIN MARKET.

Chicago, Sept. 20.—The wheat market showed considerable strength early and late today, but during mid-scalon there was a weak tone because of the increased offerings by many of the weak-kneed professionals. There was less said about the heavy takings of cash wheat by the agents of the varieties of the varieties

Brokers reported the trea lie of Pa charged \(\) 600 in du suspects w being charge and the May resting spice for the are bottom levels of the week and during the last few minutes of the day. The sales were lead by some of the larger houses in the trade.

The sales were lead by some of the larger houses in the trade.

There was more or less encouragement in the wheat news from abroad Cargoos were 450 days at 1014, 51,000 at 515, 5200 at 1015, 51,000 at 1015,

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock markets. First deed of trust notes (first mortsages), well secured on real cetate in the District of Columbia, constitute "glit-edge" investments, and do not depend upon the financial responsibility of individuals or corporations for their stability. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."

Reign Supreme

The Country's prosperity is now measured by steel and copper, their position being practically identical as related to high prices for the metals, due to a far greater demand than supply.

While the upturn in prices of steel and copper has been reflected in the stock market, the consensus of opinion is that still higher levels are yet to come, legically warranted by the huge earnings of the various companies.

The current issue of "Investment opportunities" will give you a line on the dividend and market-profit per-fibilities of steel and copper to the dividend and market-profit per-fibilities of steel and copper in the content of the content in the conten
